CATNET

The CATNET Project

- ***Submission of SISP Plan to the NCC and DBM in 1996 and CHED in 1997 by then ITC Director Prof. Exequiel A. Mariano Jr.***
- ***Submission of the ISP to Cong. Verceles for funding support out of his CDF and CIA funds.***
- ***Exchange of notes between DR. Bagadiong, Dr. Rodulfo, Congressman Verceles and Prof. Mariano for the ISP implementation.***
- ***The initial concept of CATNET is access, connectivity and linkages with other government and non-government agencies locally, nationally and internationally through fiber optic loop system and microwave repeaters in every municipality of the Province and a central hub to be located in downtown Virac.***
- ***Initial funding request for DOST was set to P 2,000,000 with CSC counterpart in the amount of P2,165,633 as a requirement equity but was funded by Verceles' CDF in the amount of 2,260,000 (1966).***

» Catanduanes

Is a kidney-shaped island floating like an emerald jewel on the western seabord of the vast Pacific under the equitorial sum, where God seems to have generously showered gifts in wild abandon, where the sea eternally kisses the skies, and the melody of the waves joins in chorus with the symphony of the winds, peopled by sturdy islanders steeled by typhoons and adversities, a man's land on earth.

» Features

Government

A good government is based on good leadership, on how the leaders assume their oathed position and responsibilities. Government comprises the people as well... The Provincial Government of Catanduanes is on its best for the benefit of all Catandunganons

Tourism

Full of beauteous & breathtaking sceneries, Catanduanes is the island you are looking for if you need a place where to have

Agojo Marine Park Website

The screenshot shows a web browser window with the title "Agojo Marine Park & Sanctuary - Official Website Entry to the 2002 Philippine Schools CyberFair - Microsoft Int...". The browser's address bar shows "www.catnet.ph". The website header features the title "Agojo Marine Park & Sanctuary" and the subtitle "a Catanduanes State Colleges Laboratory High School Production". A navigation menu includes "HOME", "PROJECT NARRATIVE", "MANGROVES", "CORAL REEFS", "PROJECT CONSULTANTS / COOPERATING AGENCIES", and "SITE MAP". The main content area displays the page title "Assessment of Ecological Habitats of Agojo Fish Sanctuary" and a paragraph about marine sanctuaries. A "Quick Links >>" dropdown menu is visible. On the right side, there is a photograph of mangrove trees. The Windows taskbar at the bottom shows the Start button, several open applications (Microsoft Word, Internet Explorer, Microsoft PowerPoint), and the system clock displaying "11:04 PM".

Assessment of Ecological Habitats of Agojo Fish Sanctuary

[Marine Sanctuaries and Reserves](#) can be our best answer to our dwindling marine biodiversity. These areas were enacted by Ordinances (Barangay, Municipal & Provincial), Presidential Decree, etc. and are designed and designated for protection, conservation, rehabilitation and management of our marine diverse ecosystem.

One of the criteria for establishing a marine fishery reserve or sanctuary is the presence of either of the three habitats (i.e. [coral reef](#), [sea grass / seaweeds](#) and [mangrove](#) area). For Agojo Fish Sanctuary, the site is endowed with all three habitats which is the best characteristic of a good Marine Reserve or sanctuary. ([more...](#))

Socio-economic impact of Agojo Marine Park and Sanctuary in neighboring barangays

Implementation Phase

PHASE	DURATION	PROJECT DESCRIPTION	REMARKS
I	1996-1998	Conduct of feasibility study on the network configuration in Catanduanes	Setting up of plans and specification for Networking
II	1999-2001	Layout of Fiber Optics Loop Infrastructure in downtown Virac	5.5 Kms underground cable
III	2002-2003	Enhancement of Networking Capabilities in Catanduanes	Acquired complete Networking Equipments
IV	2004-2005	Out-Sourcing/ Sustainability of Operation Plans/ Activities	Project Proposals Submitted to concern agencies.

CATNET SITE

Inventory of Resources

ITEM	QTY	UNIT	DESCRIPTION	REMARKS
NW Servers	3	Sets	PDC, BDC, Proxy	From DOST
Workstations	90	Sets	Pentium III PC Computers	From DOST
Operating System	1	Set	Windows NT 4.0	From CHED
Air-Conditioning	8	Pcs	1.5 HP Condura Window Type	From DPWH
Power Source	1	Set	50KVA Electric Generating Set	From DPWH
Office Tables	5	Pcs	Narra Office Table	From DPWH
Executive Chairs	1	Pcs	Gas Lift Executive Chairs	From DPWH
Clerical Chairs	60	Pcs.	Clerical Chairs	From DOST
Conference Chairs	10	Pcs.	Conference Chair	From DPWH
Vehicle	1	Pc	Multi-Cab Brand	CSC Bldgs/Grounds
Computer Table	60	Pcs	Computer Table (Glass)	DOST

Accomplishments

- **Established Linkages with other local/ national office in Virac (EBMC, PNP, PIA)**
- **Conducted IT clinic Summer 2000 and Summer 2001 (2,700 and 7,0706 recepients)**
- **Served the daily usage of various sectors at CATNET and offices at CSC/ and others)**
- **Conducted Various academic classes at CATNET Laboratory and Conference room.**
- **Conducted/ Sponsored Seminars (E-commerce, html/ xtml, macromedia, visual basic, DataCom, and Networking**
- **Sponsored various student peer training, Saturday classes (free) for local professionals.**
- **Participated in Cyberfair competition (national/ international) coaching and development**
- **Web development and web hosting (CSC/CATGOV)**
- **Provided faculty and various colleges services (ex. Accreditation, Program, etc..**
- **Provided Internet access to (8hrs x 180 users x 3 yrs) + (8hrs x 360 users x 2 yrs) to approximately 21,000 public and private users.**
- **Served / response to On-line public queries on various topics/sites.**
- **Hosting of seminars, training, conference, sponsored by other agencies in the province of Catanduanes.**
- **Provided professional/ technical consultancy/ counseling to various private and government sectors**

Future Plans/ Activities

- Extend expert services to various offices re: data banking and other IT compliance (E-commerce, E-governance, E-procurement, ETC and other IT- related provincial agenda).
- Expansion via micro-wave repeaters to other municipalities (as of now independent IT packet thru VSAT administered by CATNET thru provincial funds and donations from connected learning community (CLC) of Microsoft Corporation.
- Continued support to R&D thru infra and expert services/ consultancy and statistical software use and deployment.
- Periodic maintenance/ consulting of web pages and web sites, hosting of CSC and other Local Government Agencies in the different municipalities.
- Completion of CATNET building II (3rd/ 4th floor) with a budget of P 5,000,000
- Construction of Landscaping / parking Space of CATNET building II with a budget of P1,200,000
- Rent -out of CATNET building II canteen.
- Continue providing training to various sectors through Extension Services and Revenue Generation for sustainability of CATNET Operations.
- Decisive out-sourcing, fund raising and submission of project/ funding proposals.
- Continuing Study on the Optimum Networking Configuration in relation to Cost of delivering Internet information to the people of Catanduanes

About CATNET 1

- The CATNET (or Catanduanes Internet Network) is a test –bed project under the GISNET (or Government information Sharing Technology Network) which is, a program within the telecommunications component of the National information Technology Plan (NITP) 2000. This project started implementation in October of 1996 and nearing its Phase III completion by October 30, 2003.

[\[Next\]](#)

Duties and Responsibilities of CSC

- Operate and maintain the CATNET/GISNET Project.
- Determine and pilot test the optimum networking configuration.
- Monitor and study the performance and level of utilization of the network.
- Examine and make appropriate recommendations on the management and administration of the network.
- Assess manpower requirements and other concerns related to the sustainability and improvement of the network.
- Coordinate with DOST the setting up and assessment of the network.
- Provide consultancy to other government agencies that will connect to the network.
- Design and manage over-all database requirements of the province for the purpose of projecting capabilities, products and other information that will expand its opportunities for accelerating economic and social growth.
- Provide opportunities for students, government and private employees, researchers and other residents to acquire computer literacy and set up knowledge-based enterprises.

Objectives and Operations

- To improve access to and dissemination of information specifically among Science and Technology (S&T) researchers in the Province of Catanduanes;
- To develop manpower capability in networking; and
- To catalyze Research and Development activities in the area.
- The Project is being undertaken by the CSC in accordance with the approved project proposal.

FAQs H

How About its Sustainability of Operation?

It can sustained itself!. A project proposal was initiated and submitted to the CSC president outlining the sustainability of operation of CATNET in terms of Out-sourcing, fund raising and adoption of the Corporatization Plan of the Colleges.

A proposal for Phase IV also reflects the CATNET's project request to expand the project to the next phase as its building II is not yet completed (3rd and 4th floors) by requesting DOST to extend additional funding support. (deffered by the CSC President)

[\[Return\]](#)

Problems Encountered

- ***Lack of Administrative Staff support***
- ***Political Interference/ Political indifferences***
- ***Lack of Personnel and Institutionalized Budget allocation***
- ***Lack of Education , Information , Dissemination and Awareness among the People on the role of CATNET in the Academic development of CSC and the Socio-economic development of the Province of Catanduanes as a whole.***
- ***Absence of Functional IT organization at CSC that would professionally manage, administer and integrate CATNET facilities to the IS requirements of CSC to its advantage.***
- ***Lack or inadequate Executive Leadership or IT champion among Top Level management personnel.***

Community e-Center Program (CeCP)

**Department of Transportation
and Communications**

Vision For ICT[1]

“ICT will be our leading sector for growth..We expect ICT to be the key to finding our proper niche in the global village in the 21st century”

--- Pres. Gloria Macapagal-Arroyo

DOTC's CeC Program Objectives

- **To bridge the digital divide between the information-have- communities and information-have-not-communities**
- **To provide universal access to ICT services particularly to unserved rural areas**
- **To link communities together**
- **To empower rural communities socially, economically and politically**
- **To serve as vehicle in the electronic delivery of critical government services (national and local)**

CeC Program

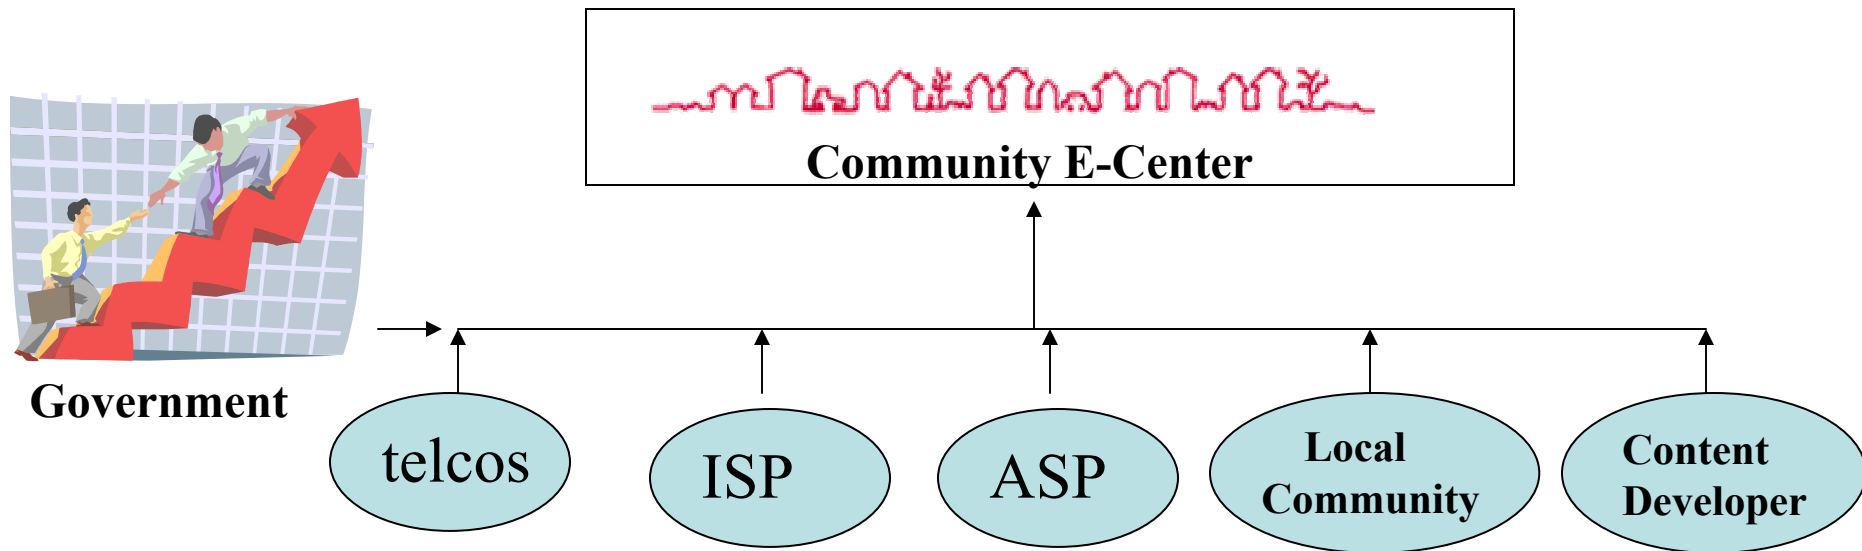

- ORGANIZATION

- • **ITECC** – Information Infrastructure Committee thru the Sub-committee on Community E-Center Projects
- • **DOTC** – Community E-Center Program's Oversight and Coordinating Committee

CeC Program

IMPLEMENTATION STRATEGIES (POLICY on Participation)

- Encourage private sector participation, with government as enablers and facilitators.

CeC Program

- Policy on sustainability
 - Share available government space with private sector operator.
 - Establish Point-Of-Presence
- Operationalization Policy
 - Mobilize effective community interest and participation.
 - Participation of LGUs.
 - NGOs as excellent vehicles for reaching target groups.
 - Government as Enablers and Facilitators

BENEFITS OF Cec IN HEALTH SECTOR

- **Access to different Hospitals and other Health Institutions**
 - General Information
 - Specialization and facilities
 - Fees and charges
- **On-line consultation**
- **Address shortage of doctors**
- **Access to health-related information**
- **Advisory on how to control/prevent diseases and epidemics**

Benefits Of CeC In Education

- **Access to different schools and universities**
 - General Information
 - Courses offered
 - Curriculum
 - Fees and charges
 - Research
- **On-line distance learning for teachers and students**
- **Access to information for research and development**
- **Provide informal education in very remote communities without any school**

Role Of Communities In CeCP

The local community is a key stakeholder in CeC

- It helps identify needs and opportunities, provides resources and helps plan for growth and sustainability
- It can mobilize effective community interest and provides awareness of the CeC as being:
 - a business opportunity with community service objectives
 - an exercise in local capacity building
 - a tool that can help the community address its problems

Role Of Local Governments In CeCP

- Formulate and facilitate implementation of a Community E-Center project
- In some cases contribute to funding.
- Involve grassroot organizations and NGOs for reaching target groups and are effective in short-term actions directed at specific objectives.

Role Of Private Sector In CeCP

- Work with the Government and local communities to establish and sustain CeCs
- Provide access points for CeCs
- Provide content that would be beneficial to communities
- Provide internet-based services for communities
- Provide ICT training for CeCs

Role of Community SMEs

- The SME sector is the backbone of the Philippine economy. It
 - comprises about about 99.6% of all registered firms nationwide
 - employs 69.9% of the labor force, and
 - contributes 32% to the economy.
- SMEs
 - help ensure a more equitable distribution of income,
 - disperse economic activities to the countryside, and
 - are a potent force in the war against poverty.

Role of National Government

- Develop and conduct a public information and communications program for the promotion of the benefits and use of Community e-Center, publicize the program and reach out to potential participants
- Institute plans and programs supporting the establishment and sustainable operation of Community e-Centers
- Issue policy and regulatory guidelines that would create an environment supporting the increase in use of internet and the Community e-Center
- Identify and resolve bottlenecks and hindrances to the efficient and effective delivery of government services on-line
- Coordinate the location of targeted communities to ensure wider access to ICT services and content

Incentives for BMBE

- Through [Republic Act No. 9178](#), otherwise known as the Barangay Micro Business Enterprise (BMBE) Act of 2002, the Philippine government has set a policy to promote the establishment of BMBEs by providing various incentives and benefits to entrepreneurs.
- DTI has already been able to assist thousands of SMEs nationwide in their endeavor to take their enterprises to a higher level.
- Targeted and collaborative interventions in financing, marketing, training, product development/technology intervention, and advocacy have resulted in higher business performance for many of these companies, as measured in their assets, employment, and sales.

Investment in CeC Suitable for SME

- Multimedia computers (3)
- Software Package
- Printer (1)
- Fax (software or hardware)
- Copier
- Renovation of office space
- Telephone and Internet Access Account
- Initial Investment - P150Tup

E-government Services- some examples

- Government EPS
- SSS online
- E-Census
- BIR Online
- DFA Online
- Others

Electronic Procurement System

DigitalFilipino E-Commerce Workshop E-Book

- Launched last May 12, 2004
- Used in educating NGOs, telecenter personnel, SMEs
- To be supported by a twice a year e-commerce trainers workshop.

E-commerce, the Internet, and wireless technologies will change the way Filipinos do business in the near future. They will be important enablers of the country's economic recovery. However, in order for this to take place, e-commerce awareness and capacity building are vital.

DigitalFilipino E-Commerce Workshop E-Book brings a Philippine-centric perspective on e-commerce for easy comprehension by small and medium enterprises, students, and non-IT professionals. It has been read and reviewed by more than 1,000 Internet users online.

What makes this book different is that it is written with the entrepreneur in mind. Janette Toral's transition from a lobbyist, journalist, writer, researcher, to a full-fledged entrepreneur is reflected in her knowledge sharing.

Read, learn, and create! We hope this book will inspire you to achieve great things with e-commerce where the only limits are your determination and passion.
