“The Participation Age”

Bhra Eka Gunapriya
President Director
PT Sun Microsystems Indonesia

Agenda

- Sun on Open Source
- What community wants
- Powering “Participation Age”

The Vision – “Participation Age”

Everyone and Everything Participating on the Network

The Mission

To Create the Technologies, Products and Services that Power the Participation Age

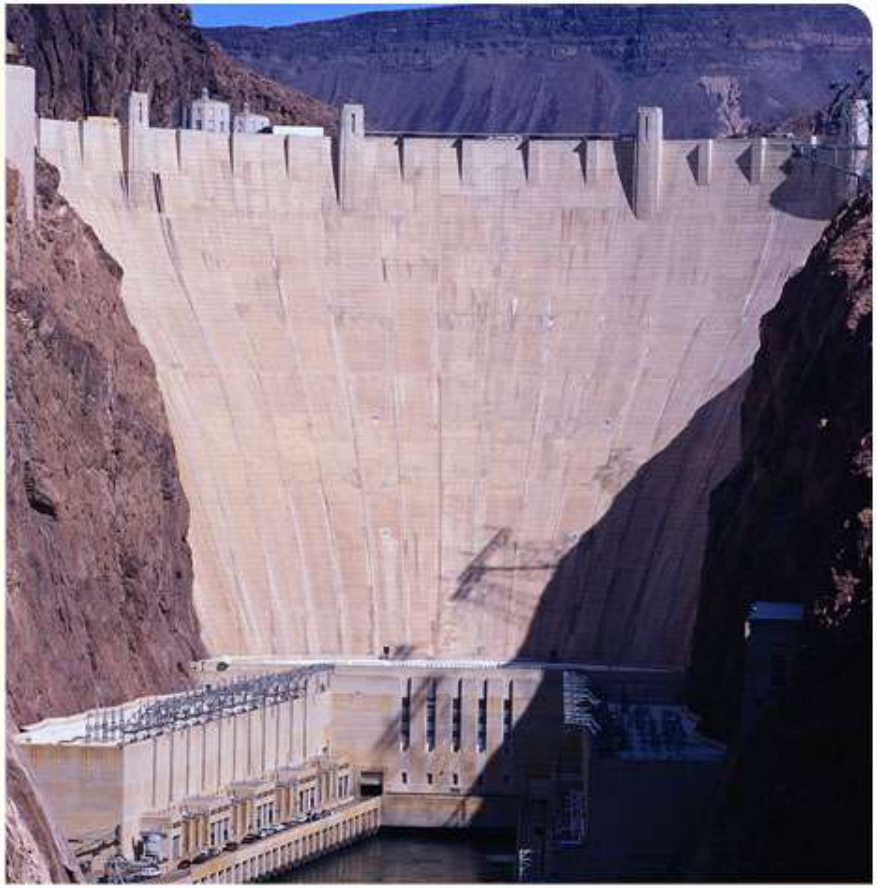
Our Cause: Eliminate the Digital Divide

While Making the Planet Better Off

The Strategy

Sharing Creates Communities, Communities Create Markets

Threshold of a New Era



Scale Matters

Threshold of a New Era

Innovation Matters

Threshold of a New Era

Standardization Matters

Threshold of a New Era

What's Important to CIO

- Increase SECURITY – limit liability
- Reduce Software licensing costs by factor of 10
- Reduce complexity and costs of management

What's Important to User

solaris™

Global Education Learning Community

Sun on Open Source

- Sun believes in open source and stand behinds its customer with openness, innovation and support
- Contribute and integrate with open source both in desktop and server(OpenOffice, Solaris, JDS, Project Janus, etc)
- Free as in freedom, not as in “Buy one, get one free.”

Sun microsystems

Participation drives economic *and* social progress.

Participation
=
Opportunity

THANK YOU!
