List of Examples

Chapter 1. User's Guide

1.1. Overview

This module provides the possibility to print user formatted log or debug messages from SER scripts, similar to printf function but now a specifier is replaced with a part of the SIP request. Section 1.2 shows what can be printed out.

1.2. Implemented Specifiers

- %% : '%'
- %Ts : unix time stamp
- %Tf : string formatted time
- %ci : call-id
- %cs : cseq
- %ct : contact header
- %fu : 'From' uri
- %ft : 'From' tag
- %rm : request's method
- %ru : request's r-uri
- %rr : reply's reason
- %rs : reply's status
- %tu : 'To' uri
- %tt : 'To' tag
- %mi : SIP message id
- %pp : process id (pid)
- %is : IP source address

1.3. Dependencies

1.3.1. SER Modules

The following modules must be loaded before this module:

- *No dependencies on other SER modules.*

1.3.2. External Libraries or Applications

The following libraries or applications must be installed before running SER with this module loaded:

• *None*.

1.4. Exported Parameters

1.4.1. `buf_size` (integer)

Maximum size of the log message.

Default value is 4096.

Example 1-1. Set `buf_size` parameter

```
...
modparam("xlog", "buf_size", 8192)
...
```

1.5. Exported Functions

1.5.1. `xlog(level, format)`

Print a formated message using LOG function.

Meaning of the parameters is as follows:

• *level* - The level that will be used in LOG function. It can be:

  • L_ALERT
  • L_CRIT
  • L_ERR
  • L_WARN
  • L_NOTICE
  • L_INFO
  • L_DBG

What really matters is the third letter of the value.

- *format* - The formatted string to be printed.

Example 1-2. `xlog` usage

```
...
xlog("L_ERR", "time [%Tf] method <%rm> r-uri <%ru>\n");
...
```

1.5.2. `xdbg(format)`

Print a formatted message using DBG function.

Meaning of the parameters is as follows:

- *format* - The formatted string to be printed.

Example 1-3. `xdbg` usage

```
...
xdbg("time [%Tf] method <%rm> r-uri <%ru>\n");
...
```

Chapter 2. Developer's Guide

The module does not provide any sort of API to use in other SER modules.

Chapter 3. Frequently Asked Questions

1. Where can I find more about SER?

Take a look at http://iptel.org/ser.

2. Where can I post a question about this module?

First at all check if your question was already answered on one of our mailing lists:

- http://mail.iptel.org/mailman/listinfo/serusers
- http://mail.iptel.org/mailman/listinfo/serdev

E-mails regarding any stable version should be sent to <serusers@iptel.org> and e-mail regarding development versions or CVS snapshots should be send to <serdev@iptel.org>.

If you want to keep the mail private, send it to <serhelp@iptel.org>.

3. How can I report a bug?

Please follow the guidelines provided at: http://iptel.org/ser/bugs
